

United States Department of Agriculture,

BUREAU OF ANIMAL INDUSTRY.

JOHN R. MOHLER, CHIEF OF BUREAU

SERVICE AND REGULATORY ANNOUNCEMENTS.

JANUARY, 1922.

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D.C., at 5 cents each, or 50 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

NOTICE REGARDING MEAT INSPECTION.**NONPOISONOUS RAT EXTERMINATORS.**

The use of poisons in rooms or compartments in which exposed meats are handled or stored is prohibited by paragraph 7, section 3, Regulation 8, B. A. I. Order 211. This prohibition has led to the employment of various so-called nonpoisonous preparations for the extermination of rats. The effectiveness of such preparations has not been established to the satisfaction of the bureau; their use has been permitted, however, on the ground that possibly they may be of value and not harmful, but under no circumstances is such permission to be construed as a recommendation or indorsement of any particular preparation. This notice touching the matter is prompted by the fact that the bureau is in receipt of information to the effect that at least one manufacturer or seller of a nonpoisonous preparation is parading a bureau letter of permission as an indorsement or recommendation of his product.

NEW FISCAL REGULATIONS.

A complete revision of the Fiscal Regulations of the department has been issued, effective January 1, 1922. The Washington office will endeavor to include a copy of such regulations with each shipment of supplies ordered on all monthly requisitions of February 1. An additional supply, as necessary, should be ordered by field stations on Form P-1. It will be noted that the travel regulations are included and are shown on pages 17 to 40, inclusive. A new separate of the travel regulations will be issued in the near future, of which notice will be given.

AMENDMENTS TO THE PROPERTY REGULATIONS.

[By Memorandum No. 361 of the Office of the Secretary, dated Dec. 27, 1921.]

Paragraphs 9 and 11 of the Property Regulations are amended to read as follows:

9. *Sale or other disposition of property in general.*—Articles for which the department, in Washington, has no further use and articles which have become unserviceable will be turned over, fully listed and tagged, to the officer in charge of supplies. Upon receipt of property thus turned in, the officer in charge of supplies will place the same on exhibition, notifying all property officers of the various bureaus and offices of the fact, and transfer, without charge, to other bureaus or offices, such articles as may be desired, taking a receipt for the same, which shall be attached to the turn-in papers and become a part of the record in that particular case. The officer in charge of supplies may also take into his stock such articles as he can handle and believes at some future time may be disposed of in the same way. The officer in charge of supplies shall then call a meeting of the board of survey and dispose of the residue of the turned-in property by transfer to the General Supply Committee.

When any board of survey has decided that articles shall be sold, the sale will be advertised by notifying interested parties by letter, circular, or poster. No expense will be allowed for advertising in newspapers except by specific written authority of the Secretary. When property has been sold the board of survey will pay all expenses, take receipts therefor, and remit the net proceeds by postal money order, bank draft, or cash to the disbursing clerk of the department or appropriate fiscal agent, to be deposited in the Treasury to the credit of miscellaneous receipts. No department property shall be disposed of by private sale unless the Secretary shall so direct.

It shall be the duty of each board of survey to see to the destruction of all property which it has condemned and ordered to be destroyed. At least one member of the board shall be present when the property is destroyed, and when proper destruction has been effected, shall make and submit to the Secretary a certificate to the effect.

The transfer of property in the field from one branch of a bureau to another shall be made only upon approval of the chief of bureau.

The transfer of property in the field from one bureau to another shall be made only upon the approval of the Secretary.

The sale of property in the field by one bureau to another is prohibited. (See Administrative Regulations.)

11. *Disposition of property at field stations.*—The chiefs of bureaus, divisions, or offices are authorized to sell at field stations of the bureaus, divisions, or offices, after public notice by advertisement or otherwise, such articles of equipment as are worn out or damaged beyond repair but which have a sale value estimated at \$500 or less. The chief of the bureau, division, or office may delegate this authority to some competent and responsible official. Serviceable articles of equipment which are of no further use in the bureau, division, or office should be reported as surplus to the officer designated to act as director of sales of the department together with recommendations as to disposition.

PLACES DESIGNATED AS PUBLIC STOCKYARDS.

Cheyenne, Wyo., has been removed from the list (published in Service and Regulatory Announcements for August, 1921, p. 84) of places designated by the Bureau of Animal Industry as public stockyards at which inspection is conducted in accordance with B.
